SUMMARY

Motivated and detail-oriented IT professional with hands-on experience in software development through academic projects and an internship at CEEE Technologies. Proficient in web and mobile application development, with skills in technologies like JavaScript, PHP, MySQL, MERN stack, and Android Studio. Known for adaptability, teamwork, and a passion for continuous learning. Seeking an opportunity to apply my technical skills and contribute to innovative solutions in a dynamic environment.

EDUCATION

Bachelor of Information Technology

2021 – 2024

Saegis Campus, Nugegoda, Sri Lanka

- Current GPA: 3.70
- Relevant Courses: Software Engineering, Database Management, Web Technologies, Mobile Application Development, Object Oriented Programming, Cloud Computing

G.C.E. Advanced Level (A/L)

2020

Princess of Wales' College, Moratuwa

- Physical Science Stream
- Results: Three Ordinary Passes (Including General English – Credit Pass)

G.C.E. Ordinary Level (O/L)

2016

Princess of Wales' College, Moratuwa

- Six Distinction Passes (Including Mathematics & IT)
- Two Credit Passes (Including English)

Certificates

- Web Design for Beginners – University of Moratuwa (2023)
- Python for Beginners – University of Moratuwa (2023)
- English Language Skills for Employment – University of Moratuwa (2020)

WORK EXPERIENCE

Software Engineer Intern

Feb 2024 - Aug 2024

CEEE Technologies - 12/10A, Cyber Park, First Lane, Nugegoda (10250),

- Developed and optimized web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Collaborated with cross-functional teams to implement new features and ensure seamless API integration.
- Designed and implemented a CRM system for a client, improving user experience and data management efficiency.
- Gained experience in troubleshooting, debugging, and deploying web applications.

Key Internship Projects:

- **Customer Relationship Management (CRM) System for SLTC**
Developed a CRM system using the MERN stack, allowing streamlined customer data management and improved user experience.
- **Referral Management System (RMS) for SLTC**
Implemented a referral management system that integrated with existing databases, enhancing efficiency in referral tracking.
- **Integrated Student Management System (ISMS) for SLTC**
Contributed to the development of a student management system, focusing on database optimization and system usability.

PROJECTS

Document Management System for Department of Ayurveda 2024-Present

<https://github.com/Ayeshmilmalka/DMS/tree/merge-branch-1.0.0>

Technologies: HTML, CSS, JS, PHP, MySQL, JQuery, Bootstrap

- Designed a web-based system to manage and organize documents efficiently, incorporating user authentication and data management features.

Request Management System 2024-Present

<https://github.com/Ayeshmilmalka/Request-Management-System>

Technologies: MongoDB, React.js, TypeScript, CSS, Express.js, Node.js

- Developing a full-stack request management system using the MERN stack with TypeScript.

Android Online Shopping Mobile App 2024-Present

<https://github.com/Ayeshmilmalka/Mobile-App>

Technologies: Android Studio, Firebase, SQLite

- Developing an Android application that provides a seamless online shopping experience with real-time data storage using Firebase.

Hangman Game 2024

<https://github.com/Ayeshmilmalka/react-hangman>

Technologies: React, TypeScript, Vite.js

- Built an interactive Hangman game featuring a dynamic UI, keyboard inputs, and a scoring system.

Responsive Personal Portfolio Website

2023

<https://github.com/Ayeshmilmalka/portfolio>

Technologies: HTML, CSS, JS, Bootstrap

- Created a responsive portfolio website showcasing personal projects and skills, optimized for both desktop and mobile users.

Responsive Coffee Shop Website

2023

<https://github.com/Ayeshmilmalka/CoffeeShop-Website>

Technologies: HTML, CSS, JS, Bootstrap

- Developed a fully responsive website for a coffee shop, focusing on a user-friendly interface and mobile-first design.

E-Commerce Website Front-End

2023

Technologies: WordPress, WooCommerce

- Developed the front-end for an e-commerce website, enhancing user experience, product listings, and secure payment integration.

Responsive Fuel Station Website

2022

<https://github.com/Ayeshmilmalka/Ceypetco>

Technologies: HTML, CSS, JS, Bootstrap

- Designed and developed a responsive front-end for a fuel station website, providing an intuitive user experience across devices.

Redesigned Ocean University Website

2021

Technologies: Figma

- Created a modern redesign concept for Ocean University's website using Figma for design prototyping and user interface development.

ADDITIONAL INFORMATION

Technical Skills

- **Programming Languages:** JavaScript, PHP, Java, C, TypeScript, Kotlin, C#, JAVA
- **Web Development:** HTML, CSS, Bootstrap, MERN Stack (MongoDB, Express.js, React.js, Node.js) WordPress
- **Mobile Development:** Android Studio, Firebase, SQLite
- **Database Management:** MySQL
- **Tools & Technologies:** Git, Postman, AWS, Figma, Canva, Docker

Soft Skills

- **Problem-Solving:** Ability to analyze issues and develop effective solutions.
- **Teamwork:** Experience collaborating with cross-functional teams on projects.
- **Adaptability:** Quick to learn new technologies and adjust to changing environments.
- **Time Management:** Efficiently manage multiple tasks and deadlines.
